

Project Plan

1. Project Overview

This document outlines the objectives, scope, timeline, and deliverables for the project.

2. Objectives

- Define clear project requirements.
- Develop the planned features.
- Test, validate, and deploy the final product.

3. Scope

The project includes analysis, design, development, testing, and deployment.

4. Timeline

- Phase 1: Requirement Gathering – Week 1
- Phase 2: Design & Architecture – Week 2
- Phase 3: Development – Week 3–6
- Phase 4: Testing – Week 7
- Phase 5: Deployment – Week 8

5. Deliverables

- Requirements Document
- Design Specification
- Source Code
- Test Report
- Deployment Package

6. Team Roles

- Project Manager
- Developer(s)
- QA Tester

- DevOps Engineer

7. Risks & Mitigation

- Requirement changes → Frequent communication
- Delays → Buffer in timeline
- Technical challenges → Early prototyping
